

Understanding The Power Of Tidal Projects For Marine Civils

Location:

Mayflower Park, Southampton, SO14 2AN

Date: Wednesday 14 June 2023, 11.00am-1.00pm, Conference Room 2

Buffet Lunch - 1.00pm-1.30pm

ABOUT THIS EVENT

Join the Civil Engineering Contractors Association (CECA) on 14 June at Seawork for their Conference Session focused on Tidal Power projects.

Speakers include:

- **Stuart Murphy, founder & inventor of TPGen24**
- **David Cooper (Regional Partnership Manager; Clean Maritime ORE Catapult**
- **Capt. Martin Willis, Executive Officer for the UKHMA.**

Stuart and David will outline opportunities for marine civils in delivering key offshore infrastructure; the magnitude of investment needed to build and maintain tidal power projects; the benefits, resilience, and longevity of tidal green energy; and the environmental implications for this renewable energy sector.

CECA will also be joined by Martin Willis, Executive Officer of the UK Harbour Masters Association (UKHMA), who will provide his insight on offshore projects and highlight the importance of engaging with the UKHMA for the necessary approvals.

ABOUT CECA - www.ceca.co.uk

CECA is the representative body for companies who work day-to-day to deliver, upgrade, and maintain the country's infrastructure. With more than 300 members including Balfour Beatty, BAM Nuttall, Kier, Tarmac & Volker Stevin, CECA represent firms - who together - carry out an estimated 70-80 per cent of all civil engineering activity in the UK, in the key sectors of transport, energy, communications, waste and water.
